EXECUTIVE SUMMARY

Senior program and business leader with 20+ years of experience across Indonesia, Myanmar, Vietnam, Tanzania, and regional APAC delivery environments. Proven track record leading nationwide rollout, transport optimization, and AI-driven operational transformation programs involving 9,800+ assets and multi-vendor ecosystems. Specialized in executive stakeholder management, PMO governance, KPI/SLA recovery, CAPEX optimization, and cross-functional delivery leadership, combined with hands-on data capability (Python, SQL, Power BI, AWS).

CORE COMPETENCIES

Hard skills: Program & Delivery Leadership, CAPEX & Budget Optimization, Risk Management, KPI/SLA Governance, B2B Contract Negotiation, Bid & Proposal Leadership, Python, SQL, Power BI, BigQuery, AWS, Predictive Analytics & ML Forecasting, PMO Governance, Infrastructure Rollout (RAN, IP/MPLS, Fiber, 5G Validation).

Soft skills: Executive Stakeholder Management, C-Level Communication & Reporting, Cross-Functional Team Leadership (50+ staff), Vendor & Partner Negotiation, Strategic Decision-Making, Change Management, Coaching & Team Development.

KEY ACHIEVEMENTS

- Achieved 22% CAPEX savings in a nationwide transport optimization program delivered with Boston Consulting Group for Indosat Ooredoo.
- Directed lifecycle planning and execution across 9,800+ telecom tower assets; improved CAPEX efficiency by 12% and reduced go-live time by 18%.
- Built Python/SQL automation pipelines reducing manual SLA reporting effort by 70-75%; cut escalation turnaround from 72 hours to 16 hours.
- Led nationwide KPI/SLA recovery across 800+ sites with a 50+ person team; reduced repeat SLA violations by 35% with 100% audit compliance.
- Deployed ML-driven traffic forecasting reducing operational congestion incidents by 25%.
- Spearheaded a 4,500-site, 5-year program bid (Digicel Myanmar): feasibility, budgeting, spectrum planning, and delivery cost models.

PROFESSIONAL EXPERIENCE

Technical Data & Testing Strategic Director — Metcoindo Penta Perkasa | Feb 2024 - Present

- Led deployment readiness for 25+ ZTE data centers nationwide across MEP, transport, QA, and IT domains.
- Implemented predictive monitoring, AWS dashboards, and Python automation reducing escalation turnaround from 72h to 16h.
- Maintained 98.5% site readiness with under 3% cost deviation while accelerating go-live approvals by 60%.

Technical Program & Solution Lead (Pre-Sales) — Centratama Menara Indonesia | Jan 2023 - Jan 2024

- Directed lifecycle planning and execution across 9,800+ telecom tower assets in Sumatera (tenant rollout, relocation, dismantle).
- Achieved 8.9% tenant conversion from a 10% target; improved CAPEX efficiency by 12% and cut average go-live time by 18%.
- Developed feasibility scoring and dashboard visibility systems for faster risk mitigation.

Technical Project & Test Operations Manager — Metcoindo Penta Perkasa | Jan 2020 - Dec 2022

- Managed nationwide fiber rollout and network validation programs leading a team of 30+ engineers.

- Designed automated KPI dashboards (Python, Pandas, Power BI), reducing weekly reporting time by 40%.
- Piloted machine learning-based traffic forecasting, driving a 25% drop in congestion incidents in target zones.

Project & Program Manager, Transport Optimization — Boston Consulting Group | Feb 2019 - Jan 2020

- Led a nationwide IP/MPLS and DWDM optimization program for Indosat Ooredoo across the full project lifecycle.
- Achieved 22% CAPEX savings through transport topology redesign and traffic rerouting strategies.
- Presented executive dashboards and financial updates directly to C-level and steering committee; closed on time and under budget.

Project Manager, National KPI Recovery Program — TelkomInfra | Feb 2018 - Dec 2018

- Directed nationwide KPI/SLA recovery across 800+ telecom sites, managing a 50+ person cross-functional team.
- Reduced reporting delays by 50%; controlled operational budget within a 5% deviation range.
- Cut repeat SLA violations by 35%; closed the program with 100% site audit compliance.

FTTx Project & Solutions Manager, Regional Rollout — Smart Flow (Thailand-Indonesia) | Sep 2016 - Sep 2017

- Led deployment of 1,200+ fiber rollout sites; achieved 100% first-pass QA success with rework below 2%.
- Drove solution-based selling by bundling software into rollout services, improving adoption and account retention.

RAN & Transport Rollout Delivery Manager — OneCloud Myanmar | Jan 2016 - Aug 2016

- Led rollout of 50+ greenfield RAN and transmission sites; maintained 100% on-schedule delivery for three consecutive months.
- Controlled deployment CAPEX with approximately 11% cost savings across the total site batch.

Transmission Planning Optimization & Cluster Rollout Lead — Ooredoo Myanmar | Sep 2012 - Dec 2015

- Led planning, rollout, and optimization of 3,200+ RAN and transmission sites across Myanmar.
- Cluster-based rollout strategy achieved a 30% reduction in transmission-related failures.
- Led and aligned 50+ cross-functional staff and contractors; contributed to an estimated 12% cost savings.

Foundation & Technical Growth | 2001 - 2012

- Deployed telecom infrastructure across Indonesia, Myanmar, Malaysia, Vietnam, and Tanzania: 4,000+ site rollouts at over 99.99% uptime with global vendors (Ericsson, Huawei, NSN, ZTE).

CERTIFICATIONS & TOOLS

- AWS Certified Cloud Practitioner — Amazon Web Services (2025)
- PMP Eligible — Project Management Institute
- Unsupervised Machine Learning & Anomaly Detection — QG Academy (2025)
- Fundamentals of Data Analysis & Python Automation — DQLab / Dicoding (2024)
- Tools: Python, SQL, BigQuery, Pandas, Power BI, AWS, Linux CLI, Docker (basic), MS Project
